

wiesner hager ^{concept}

clip

The table for all seasons.

Universal in application, with a high standard of design and quality, yet realistically affordable. These attributes clearly distinguish the *clip* table range from the tables usually offered on the market. *clip* impresses with its neutral and reduced design that blends well with various architectural styles. In combination with its high functionality, *clip* commends itself for all possible applications in a building.

Design: M. Ballendat

Simply universal.

The impressive, clear design of *clip* is evident in every last detail of the product. The tabletop set at a distance to the frame creates a light, floating look. The minimalist line of the design is consistently followed by the linear, four-legged frame, finished off by a flush-mounted top. The options of either round or square frame profiles allow *clip* to be combined with all chair types from the Wiesner-Hager range.

clip is neutral in design, yet highly versatile in style and function. The vast range of tabletop formats turns *clip* into a multi-purpose table series that suits practically all applications: in snack bars, company restaurants and recreation rooms just as much as for presentations, meetings and conferences. For creating various configurations, suitable linking devices are available. On request, the tables can be provided with electric cabling to permit the use of electronic media.

Rich in detail.

Optional.

Tables with round legs feature rounded tabletop edges (except for half-round table).

clip tables can be stacked and are accordingly provided with stacking protection.

Tables with square legs are provided analogously with rectangular tabletops.

Cable box (optional) for convenient plugging in at tabletop level.

Metal linking device (optional) to join the tables together when creating various configurations.
