S_Collection

S13: Pure and Minimalist.

Typical of the *S13* range is the clear, simple aesthetic which takes precedence over superfluous details. Its understatement is a key feature for adaptability to different architectural concepts. Due to its versatility and different options, the *S13* range offers a broad field of application in the contract furniture area, its main use being public halls, canteens and restaurants, seminar rooms, homes for the elderly and hospitals.
